

Uniroyal Chemical Company, Inc.**PLANTVAX® 75W****ORNAMENTAL FUNGICIDE****COMPOSITION**

ACTIVE INGREDIENTS:	(% by weight)
oxycarboxin (5,6-dihydro 2-methyl-1, 4-oxathiin-3-carboxanilide-4, 4-dioxide)	75.0%
INERT INGREDIENTS:	25.0%
TOTAL	100.0%
EPA REG. NO. 400-144	002WPS/090194

KEEP OUT OF REACH OF CHILDREN**CAUTION****STATEMENT OF PRACTICAL TREATMENT**

IF SWALLOWED: Induce vomiting and see a physician.

IF INHALED: See a physician if an abnormal reaction occurs.

IF ON SKIN: Wash thoroughly with soap and water.

IF IN EYES: Immediately flush eyes with plenty of water. See a physician.

PRECAUTIONARY STATEMENTS**HAZARDS TO HUMANS AND DOMESTIC ANIMALS****CAUTION**

Harmful if swallowed, inhaled or absorbed through the skin. Avoid breathing vapors or spray mist. Avoid contact with skin, eyes or clothing.

PERSONAL PROTECTION EQUIPMENT

Applicators and Other Handlers Must Wear: A long-sleeved shirt & long pants; shoes plus socks.

Follow manufacturer's instructions for cleaning and maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

USER SAFETY RECOMMENDATIONS

Users should:

- Wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet.
- Remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.

ENVIRONMENTAL HAZARDS

Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwaters.

PHYSICAL OR CHEMICAL HAZARDS

Do not use or store near heat or open flame.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Do not apply this product through any type of irrigation system.

Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation.

AGRICULTURAL USE REQUIREMENTS

Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR part 170. This Standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and greenhouses, and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification, and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about personal protective equipment (PPE), and restricted entry interval. The requirements in this box only apply to uses of this product that are covered by the Worker Protection Standard.

Do not enter or allow worker entry into treated areas during the restricted entry interval (REI) of 12 hours.

PPE required for early entry to treated areas that is permitted under the Worker Protection Standard and that involves contact with anything that has been treated, such as plants, soil, or water, is:

- coveralls
- waterproof gloves
- shoes plus socks

PLANTVAX 75W is a wettable powder fungicide to be used as a foliar spray for control of rust diseases of ornamentals grown in enclosed commercial structures such as greenhouses, shadehouses and interiorscapes.

MIXING INSTRUCTIONS: Make a thin paste using a portion of the required water and the recommended amount of PLANTVAX 75W. Stir this paste by

adding additional water. Provide enough agitation to maintain a uniform chemical suspension.

For the control of rust on ornamentals: When first signs of rust disease appear, apply PLANTVAX 75W at a concentration of 1.6 to 2.4 ounces per 10 gallons of water at approximately 2 week intervals, using 2 to 4 sprays per season. In spite of the systemic effect of the material, the spray application should be made evenly. The necessary spray volume depends on the growth stage and should be made so that the plants are thoroughly covered.

Do not exceed recommended rates or number of applications, as plant injury may occur.

PLANT TOLERANCE: Neither the manufacturer nor the seller has determined whether or not PLANTVAX 75W can be used safely on all ornamentals. Prior to any large scale application on such plants, the user should determine the efficacy and safety of PLANTVAX 75W by testing a small number of the type of plants to be treated at the recommended rates and observing the treated plants for phytotoxicity over a one to two week period. The user assumes all risks arising out of application to unlabeled plants.

COMPATIBILITY

Do not mix PLANTVAX 75W with insecticides and acaricides, as plant injury may occur.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

STORAGE: Store in a dry location.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Completely empty bag into application equipment. Then dispose of empty bag in a sanitary landfill or by incineration, or if allowed by State and local authorities, by burning. If burned, stay out of smoke.

IMPORTANT NOTICE

Seller warrants that this product conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with the directions and instructions specified on the label under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, express or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to seller, and buyer assumes the risk of any such use.
